

## 2x4 Garden Closet

Call toll-free: 1.866.297.3760

Every garden needs a closet; an attractive little building to stow away your small hand tools, gardening gloves and seed packs. Available in both pine and cedar, this modest shed is an attribute to any landscape. With its diminutive size and natural appeal, it is sure not to steal the focus from your garden, while providing you easy access to your gardening necessities. The adjustable shelving allows you storage for your smaller needs, with the ability to customize, accommodating the height of larger items.

Hand made in Vermont from native rough sawn hemlock and pine lumber, this cottage is delivered fully assembled to your prepared site. Rugged post and beam techniques, passed down through the centuries, are used to construct this sturdy picturesque retreat, reminiscent of old New England. Have your own Vermont cabin in the woods!

All of our wood sheds, storage sheds, outdoor storage sheds, garden sheds, storage shed kits, cottages and utility enclosures are built of the finest Vermont lumber and handcrafted for long life and durability. New England weather can really put a wood garden shed or cottage to the test, and Jamaica Cottage Shop's products have proven to stand the test of time and strength.
